

Coface **Business Information**

A UNIQUE SUITE OF SERVICES TO KNOW MORE ABOUT YOUR BUSINESS PARTNERS

Are you seeking information about a potential business partner without knowing anything about them?

Do you need to run a health-check on your suppliers and partners and keep them monitored?

Would you like to obtain information on Coface's ability to cover potential transactions with your prospects before signing the deal?

With Coface Business Information, our wide range of business reports and credit opinions available through our online interface CofaNet will help you manage these situations.

Take a snapshot of key financials

By providing instant online access to company key data, Coface's **SNAPSHOT REPORT** strips credit information down to the essentials. At a glance you will get an overview of the company's overall creditworthiness and payment discipline to facilitate your business decisions.

...or dig deeper to get the full picture

Our **FULL REPORT** provides comprehensive and extensive information allowing an in-depth analysis of the credit risk in order to assess potential business partners and categorise clients. It is available with instant delivery online, just like the Snapshot report, but can also be provided as a new investigation depending on your business need.

OUR EXTENSIVE NETWORK OF INFORMATION PROVIDERS COVERS MORE THAN 200 COUNTRIES, PROVIDING INFORMATION ON 80 MILLION COMPANIES AROUND THE WORLD

Would you like to support your risk management with the expertise and experience of a global credit insurer?

Benefit from exclusive information based on our internal claim records

All business reports are enhanced with an added value indicator regarding late payments and claims. This information comes directly from Coface's credit insurance activity, capitalising on our extensive payment records as a global credit insurer. Furthermore, a clear indication of adverse information will help you steer your activity away from customers with a poor company rating or a bad claims record.

	What is it?
Snapshot Report	Easy access to key financials
Full Report	Extensive financial data for deeper analysis
Credit Opinion	The maximum amount recommended by our risk experts

...and enhance your analysis with the opinion of our risk experts

Providing our policyholders with prevention of non-payment risk and thorough decision-making would not be possible without our worldwide network of experts specialised in information gathering, processing and analysis. Our **CREDIT OPINIONS** provide you with the amount that we would be willing to cover, according to our analysis of the company's financial situation. Several options are available: obtain the maximum amount that can be granted up to £100,000 or consult our risk experts by requesting a credit assessment for a specific amount. With our monitoring service you will also receive notifications whenever there is a change in our risk assessment.

INFORMATION IS KEY TO MAKING THE RIGHT DECISIONS
